JOURNAL OF ELECTROANALYTICAL CHEMISTRY

Subject index

1,6-Addition reaction
Electrochemical study of 3,4-dihydroxybenzoic acid and 4-*tert*-butylcatechol in the presence of 4-hydroxycoumarin. Application to the electro-organic synthesis of coumestan derivatives (Golabi, Nematollahi) 141
Adsorbates
In situ Raman spectroscopy studies of the interface between silver(111) electrodes and alkaline NaF electrolytes (Savinova et al.) 47
Adsorption
The anodic reactions at mercury electrodes due to cysteine (Heyrovský et al.) 103
Effect of cyclodextrins on the electrochemical behaviour of ascorbic acid on platinum electrodes in acidic and neutral solutions (Manzanares et al.) 163
Alloy particle
Cu + Au alloy particles formed in the underpotential deposition region of copper in acid solutions (Lu, Tanaka) 69
Anion
Cu + Au alloy particles formed in the underpotential deposition region of copper in acid solutions (Lu, Tanaka) 69
Ascorbic acid
Effect of cyclodextrins on the electrochemical behaviour of ascorbic acid on platinum electrodes in acidic and neutral solutions (Manzanares et al.) 163

Bacterial cells
Electrocatalytic properties of *Acetobacter aceti* cells immobilized on electrodes for the quinone-mediated oxidation of ethanol (Ikeda et al.) 197
Biosensors
Electrocatalytic properties of *Acetobacter aceti* cells immobilized on electrodes for the quinone-mediated oxidation of ethanol (Ikeda et al.) 197
4-*tert*-Butylcatechol
Electrochemical study of 3,4-dihydroxybenzoic acid and 4-*tert*-butylcatechol in the presence of 4-hydroxycoumarin. Application to the electro-organic synthesis of coumestan derivatives (Golabi, Nematollahi) 141

Catalysis
Adsorption on graphite and catalytic reduction of O_2 by the macrocyclic complex of cobalt(II) with 2,3,9,10-tetraphenyl-1,4,8,11-tetraazacyclotetradeca-1,3,8,10-tetraene (Bhugun, Anson) 155
Chronoamperometry
The voltammetric response of a conical electrode (Sokirko, Oldham) 15
Cobalt
Adsorption on graphite and catalytic reduction of O_2 by the macrocyclic complex of cobalt(II) with 2,3,9,10-tetraphenyl-1,4,8,11-tetraazacyclotetradeca-1,3,8,10-tetraene (Bhugun, Anson) 155
Condensed film
The anodic reactions at mercury electrodes due to cysteine (Heyrovský et al.) 103
Conductivity
Instrumentation for ac four-probe measurements of large impedances (Fafilek, Breiter) 269
Conical electrode
The voltammetric response of a conical electrode (Sokirko, Oldham) 15
Coumestan derivatives
Electrochemical study of 3,4-dihydroxybenzoic acid and 4-*tert*-butylcatechol in the presence of 4-hydroxycoumarin. Application to the electro-organic synthesis of coumestan derivatives (Golabi, Nematollahi) 141
Cryo-TEM
Redox-active lipid-incorporating proteins as a novel immobilisation technique (Jacob et al.) 119
Cu + Au alloy
Cu + Au alloy particles formed in the underpotential deposition region of copper in acid solutions (Lu, Tanaka) 69
Cyclodextrins
Effect of cyclodextrins on the electrochemical behaviour of ascorbic acid on platinum electrodes in acidic and neutral solutions (Manzanares et al.) 163
Cysteine mercury thiolates
The anodic reactions at mercury electrodes due to cysteine (Heyrovský et al.) 103

3,4-Dihydroxybenzoic acid
Electrochemical study of 3,4-dihydroxybenzoic acid and 4-*tert*-butylcatechol in the presence of 4-hydroxycoumarin. Application to the electro-organic synthesis of coumestan derivatives (Golabi, Nematollahi) 141
Double layer capacitance
Electrochemical immittance spectroscopy applied to the study of the single crystal gold/aqueous perchloric acid interface (Motheo et al.) 253

Electrocatalysis
Electrooxidation of hydrazine catalyzed by 4-hydroxy-2,2,6,6-tetramethyl-piperidinyloxy (TEMPOL) (Xia, Li) 183
Electrocatalytic oxidation
Electrocatalytic properties of *Acetobacter aceti* cells immobilized on electrodes for the quinone-mediated oxidation of ethanol (Ikeda et al.) 197
Electrochemical immittance spectroscopy
Electrochemical immittance spectroscopy applied to the study of the single crystal gold/aqueous perchloric acid interface (Motheo et al.) 253
Electrochemical quartz crystal microbalance
Electrochemical quartz crystal microbalance study for vanadium hexacyanoferrates: monitoring of film growth and ion effects during redox reactions (Wang et al.) 127
Electro-decarboxylation reaction
Electrochemical study of 3,4-dihydroxybenzoic acid and 4-*tert*-butylcatechol in the presence of 4-hydroxycoumarin. Application to the electro-organic synthesis of coumestan derivatives (Golabi, Nematollahi) 141

Electrode|electrolyte interface
In situ Raman spectroscopy studies of the interface between silver(111) electrodes and alkaline NaF electrolytes (Savinova et al.) 47
Electrolyte effects
Nucleation and growth mechanisms of poly(thiophene). Part 1. Effect of electrolyte and monomer concentration in dichloromethane (Schrebler et al.) 77
Electrolyte electroreflectance spectroscopy
Interfacial behaviour of a quantum well electrode|electrolyte: EER spectra of an SQW GaAs|$Al_xGa_{1-x}As$ electrode in HQ + BQ non-aqueous electrolyte (Liu et al.) 91
Electro-organic synthesis
Electrochemical study of 3,4-dihydroxybenzoic acid and 4-*tert*-butylcatechol in the presence of 4-hydroxycoumarin. Application to the electro-organic synthesis of coumestan derivatives (Golabi, Nematollahi) 141
Electro-oxidation
Studies on the role of oxidation states of the platinum surface in electrocatalytic oxidation of small primary alcohols (Li et al.) 57
Electrooxidation
Partial oxidation of glucose by a Pt|WO_3 electrode (Zhang et al.) 147
Electrooxidation of hydrazine catalyzed by 4-hydroxy-2,2,6,6-tetramethyl-piperidinyloxy (TEMPOL) (Xia, Li) 183
Ethanol
Electrocatalytic properties of *Acetobacter aceti* cells immobilized on electrodes for the quinone-mediated oxidation of ethanol (Ikeda et al.) 197

Faradaic impedance
Faradaic impedance behaviour of oxidized and reduced poly (2,5-di-(-2-thienyl)-thiophene) films (Brillas et al.) 133
Film capacitance
Faradaic impedance behaviour of oxidized and reduced poly (2,5-di-(-2-thienyl)-thiophene) films (Brillas et al.) 133
Film growth
Electrochemical quartz crystal microbalance study for vanadium hexacyanoferrates: monitoring of film growth and ion effects during redox reactions (Wang et al.) 127
Finite element method
Finite element simulation of the amperometric response of recessed and protruding microband electrodes in flow channels (Ferrigno et al.) 235
Flavocytochrome b_2
Redox-active lipid-incorporating proteins as a novel immobilisation technique (Jacob et al.) 119
Flow channel
Finite element simulation of the amperometric response of recessed and protruding microband electrodes in flow channels (Ferrigno et al.) 235
Four-probe
Instrumentation for ac four-probe measurements of large impedances (Fafilek, Breiter) 269
Franz–Keldysh oscillation
Interfacial behaviour of a quantum well electrode|electrolyte: EER spectra of an SQW GaAs|$Al_xGa_{1-x}As$ electrode in HQ + BQ non-aqueous electrolyte (Liu et al.) 91
Frequency dispersion
Electrochemical immittance spectroscopy applied to the study of the single crystal gold/aqueous perchloric acid interface (Motheo et al.) 253

GaAs
Interfacial behaviour of a quantum well electrode|electrolyte: EER spectra of an SQW GaAs|$Al_xGa_{1-x}As$ electrode in HQ + BQ non-aqueous electrolyte (Liu et al.) 91
Glucose
Partial oxidation of glucose by a Pt|WO_3 electrode (Zhang et al.) 147
Gold
Electrochemical immittance spectroscopy applied to the study of the single crystal gold/aqueous perchloric acid interface (Motheo et al.) 253
Graphite electrode
Adsorption on graphite and catalytic reduction of O_2 by the macrocyclic complex of cobalt(II) with 2,3,9,10-tetraphenyl-1,4,8,11-tetraazacyclotetradeca-1,3,8,10-tetraene (Bhugun, Anson) 155
Growth
Nucleation and growth mechanisms of poly(thiophene). Part 1. Effect of electrolyte and monomer concentration in dichloromethane (Schrebler et al.) 77

High impedance
Instrumentation for ac four-probe measurements of large impedances (Fafilek, Breiter) 269
High performance liquid chromatography
Partial oxidation of glucose by a Pt|WO_3 electrode (Zhang et al.) 147
Hydrazine
Electrooxidation of hydrazine catalyzed by 4-hydroxy-2,2,6,6-tetramethyl-piperidinyloxy (TEMPOL) (Xia, Li) 183
4-hydroxy-2,2,6,6-tetramethyl-piperidinyloxy
Electrooxidation of hydrazine catalyzed by 4-hydroxy-2,2,6,6-tetramethyl-piperidinyloxy (TEMPOL) (Xia, Li) 183

Inclusion complexes
Effect of cyclodextrins on the electrochemical behaviour of ascorbic acid on platinum electrodes in acidic and neutral solutions (Manzanares et al.) 163
Infrared reflectance spectroscopy
Partial oxidation of glucose by a Pt|WO_3 electrode (Zhang et al.) 147
In situ FTIR spectroscopy
Studies on the role of oxidation states of the platinum surface in electrocatalytic oxidation of small primary alcohols (Li et al.) 57
Interfacial behaviour
Interfacial behaviour of a quantum well electrode|electrolyte: EER spectra of an SQW GaAs|$Al_xGa_{1-x}As$ electrode in HQ + BQ non-aqueous electrolyte (Liu et al.) 91
Ion effect
Electrochemical quartz crystal microbalance study for vanadium hexacyanoferrates: monitoring of film growth and ion effects during redox reactions (Wang et al.) 127
Ion pairing
Effect of ion pairing on steady state voltammetric limiting currents at microelectrodes. Part I. Theoretical principles (Oldham et al.) 25
Effect of ion pairing on steady state voltammetric limiting currents at microelectrodes. Part II. Experimental studies on charged (Br^-, Ag^+) and uncharged (copper diethyldithiocarbamate) species in toluene (Oldham et al.) 39
Iron + chromium alloy
Influence of molybdenum on the transpassivity of a Fe + 12%Cr alloy in H_2SO_4 solutions (Bojinov et al.) 169

Kinetic model
Influence of molybdenum on the transpassivity of a Fe + 12%Cr alloy in H_2SO_4 solutions (Bojinov et al.) 169

Layer-by-layer growth
Cu + Au alloy particles formed in the underpotential deposition region of copper in acid solutions (Lu, Tanaka) 69
Limiting current
Effect of ion pairing on steady state voltammetric limiting currents at microelectrodes. Part II. Experimental studies on charged (Br^-, Ag^+) and uncharged (copper diethyldithiocarbamate) species in toluene (Oldham et al.) 39
Lipid incorporating proteins
Redox-active lipid-incorporating proteins as a novel immobilisation technique (Jacob et al.) 119

Low index faces
Electrochemical immittance spectroscopy applied to the study of the single crystal gold/aqueous perchloric acid interface (Motheo et al.) 253

Mechanism
Adsorption on graphite and catalytic reduction of O_2 by the macrocyclic complex of cobalt(II) with 2,3,9,10-tetraphenyl-1,4,8,11-tetraazacyclotetradeca-1,3,8,10-tetraene (Bhugun, Anson) 155
Mediation
Redox-active lipid-incorporating proteins as a novel immobilisation technique (Jacob et al.) 119
Microelectrodes
Effect of ion pairing on steady state voltammetric limiting currents at microelectrodes. Part I. Theoretical principles (Oldham et al.) 25
Effect of ion pairing on steady state voltammetric limiting currents at microelectrodes. Part II. Experimental studies on charged (Br^-, Ag^+) and uncharged (copper diethyldithiocarbamate) species in toluene (Oldham et al.) 39
Monomer concentration
Nucleation and growth mechanisms of poly(thiophene). Part 1. Effect of electrolyte and monomer concentration in dichloromethane (Schrebler et al.) 77

NaOH + NaF electrolytes
In situ Raman spectroscopy studies of the interface between silver(111) electrodes and alkaline NaF electrolytes (Savinova et al.) 47
Nucleation
Nucleation and growth mechanisms of poly(thiophene). Part 1. Effect of electrolyte and monomer concentration in dichloromethane (Schrebler et al.) 77
Numerical simulation
Finite element simulation of the amperometric response of recessed and protruding microband electrodes in flow channels (Ferrigno et al.) 235

Oxygen reduction
Adsorption on graphite and catalytic reduction of O_2 by the macrocyclic complex of cobalt(II) with 2,3,9,10-tetraphenyl-1,4,8,11-tetraazacyclotetradeca-1,3,8,10-tetraene (Bhugun, Anson) 155
Platinum electrode
Studies on the role of oxidation states of the platinum surface in electrocatalytic oxidation of small primary alcohols (Li et al.) 57
Platinum electrodes
Effect of cyclodextrins on the electrochemical behaviour of ascorbic acid on platinum electrodes in acidic and neutral solutions (Manzanares et al.) 163
Poly(2,5-di-(-2-thienyl)-thiophene)
Faradaic impedance behaviour of oxidized and reduced poly (2,5-di-(-2-thienyl)-thiophene) films (Brillas et al.) 133
Poly(thiophene)
Nucleation and growth mechanisms of poly(thiophene). Part 1. Effect of electrolyte and monomer concentration in dichloromethane (Schrebler et al.) 77
Primary alcohols
Studies on the role of oxidation states of the platinum surface in electrocatalytic oxidation of small primary alcohols (Li et al.) 57

Quantum well electrode
Interfacial behaviour of a quantum well electrode|electrolyte: EER spectra of an SQW GaAs|$Al_xGa_{1-x}As$ electrode in HQ + BQ non-aqueous electrolyte (Liu et al.) 91
Quinone
Electrocatalytic properties of *Acetobacter aceti* cells immobilized on electrodes for the quinone-mediated oxidation of ethanol (Ikeda et al.) 197

Raman spectroscopy
In situ Raman spectroscopy studies of the interface between silver(111) electrodes and alkaline NaF electrolytes (Savinova et al.) 47
Reaction mechamism
Partial oxidation of glucose by a Pt|WO_3 electrode (Zhang et al.) 147
Recessed and protruding microband electrodes
Finite element simulation of the amperometric response of recessed and protruding microband electrodes in flow channels (Ferrigno et al.) 235

Secondary passivation
Influence of molybdenum on the transpassivity of a Fe + 12%Cr alloy in H_2SO_4 solutions (Bojinov et al.) 169
Semidifferentiation
Tables of semiintegrals (Oldham) 1
Semiintegrals
Tables of semiintegrals (Oldham) 1
Semiintegration
Tables of semiintegrals (Oldham) 1
Silver(111)
In situ Raman spectroscopy studies of the interface between silver(111) electrodes and alkaline NaF electrolytes (Savinova et al.) 47
Solid electrolytes
Instrumentation for ac four-probe measurements of large impedances (Fafilek, Breiter) 269
Stark effect
Interfacial behaviour of a quantum well electrode|electrolyte: EER spectra of an SQW GaAs|$Al_xGa_{1-x}As$ electrode in HQ + BQ non-aqueous electrolyte (Liu et al.) 91
Steady state voltammetry
Effect of ion pairing on steady state voltammetric limiting currents at microelectrodes. Part I. Theoretical principles (Oldham et al.) 25
Effect of ion pairing on steady state voltammetric limiting currents at microelectrodes. Part II. Experimental studies on charged (Br^-, Ag^+) and uncharged (copper diethyldithiocarbamate) species in toluene (Oldham et al.) 39
Surface charge
Influence of molybdenum on the transpassivity of a Fe + 12%Cr alloy in H_2SO_4 solutions (Bojinov et al.) 169
Surface disproportionation
The anodic reactions at mercury electrodes due to cysteine (Heyrovský et al.) 103
Surface oxidation states
Studies on the role of oxidation states of the platinum surface in electrocatalytic oxidation of small primary alcohols (Li et al.) 57

Tabulations
Tables of semiintegrals (Oldham) 1
Tetraaza macrocyclic complex
Adsorption on graphite and catalytic reduction of O_2 by the macrocyclic complex of cobalt(II) with 2,3,9,10-tetraphenyl-1,4,8,11-tetraazacyclotetradeca-1,3,8,10-tetraene (Bhugun, Anson) 155
Transmission electron microscopy
Cu + Au alloy particles formed in the underpotential deposition region of copper in acid solutions (Lu, Tanaka) 69
Transpassive dissolution
Influence of molybdenum on the transpassivity of a Fe + 12%Cr alloy in H_2SO_4 solutions (Bojinov et al.) 169

Underpotential deposition
Cu + Au alloy particles formed in the underpotential deposition region of copper in acid solutions (Lu, Tanaka) 69

Vanadium hexacyanoferrates
Electrochemical quartz crystal microbalance study for vanadium hexacyanoferrates: monitoring of film growth and ion effects during redox reactions (Wang et al.) 127

Voltammetry
Tables of semiintegrals (Oldham) 1
The voltammetric response of a conical electrode (Sokirko, Oldham) 15

X-ray photoelectron spectroscopy
Studies on the role of oxidation states of the platinum surface in electrocatalytic oxidation of small primary alcohols (Li et al.) 57
